RE: First Supplement to Complaint Against Ralph Heap, Participating Candidate for Arizona Corporation Commission — Documented Paid Signature-Gathering Operation Absent from Campaign Finance Reports

Respondents: Ralph Heap and his candidate campaign committee (jointly, "Mr. Heap" or "the Heap campaign").

Dear Director Collins and Members of the Commission:

Arizona Public Integrity Alliance ("AZPIA") submits this First Supplement to its complaint of August 3, 2026 (the "Complaint"), incorporated by reference. AZPIA has now examined **every one of the 1,780 petition sheets** Mr. Heap filed (Secretary of State records request 26-1269) and cross-checked each circulator against the Circulator Portal and campaign finance records. The supplement makes four points: **(1) the sheets document a substantial professional, paid signature-gathering operation; (2) the campaign's reports do not disclose it; (3) the Commission should compel disclosure of who performed and who paid for it; and (4) a sitting Commissioner's published account — that the same actors now involved in Mr. Heap's campaign proposed an off-the-books financing scheme to him in 2022 — warrants examining whether that scheme is operating here.**

Method, briefly: every affidavit was read and transcribed, with raw readings preserved (Exhibits 3–4). The extraction is validated against official figures: the SOS "valid lines" stamps captured total 15,055 against the official 15,074 paper signatures — a 99.87% match. Facts below are from the sheets, government records, or cited publications (Exhibit 5); inferences are labeled, per A.A.C. R2-20-203.

I. THE SHEETS DOCUMENT A SUBSTANTIAL PAID OPERATION

Seventy-six circulators account for the 15,272 signature lines filed. **The candidate, his family, and identifiable local volunteers account for about 14%. The rest — 85.8% — was gathered by a professional circulation crew:** 45.8% (6,988 lines) by people that registration records or press tie directly to Arizona's paid-petition industry, and another 40.1% by unidentified-employer circulators whose affidavits carry the marks of a managed operation — machine-printed,

pixel-identical affidavit fields across long runs of sheets; affidavits completed by rubber stamp with the address boxes left blank; pre-printed identity blocks; county-routed volume.

The documented paid-industry personnel (full detail, Exhibits 1–2):

Circulator (sheets / lines)	Documented cross-reference
Bruce Gorshe (6 / 59)	Owner of Uncle Sam Petitions L.L.C. — the one signature-gathering vendor Mr. Heap reported paying. Circulated personally (name clearly legible at Bates 1140; the five companion sheets at the firm's registered address are in a consistent hand — verify from originals).
Karen Gary Moons Rohde (67 / 589)	Uncle Sam registrant AZ69109; her affidavit residence is the firm's registered address (1441 S. Lindsay Rd #1088, Mesa).
Jaymar Marasigan (132 / 1,244)	Uncle Sam registrant AZ64211; portal-flagged out-of-state .
Nelmarericjohn Marasigan (41 / 370)	Uncle Sam registrant AZ67099; portal-flagged out-of-state ; the circulator whose Lombardo-petition signatures a court invalidated in April 2026 for a disqualifying felony conviction.
Victor Castillo (102 / 833)	Registrant AZ36957 under both Uncle Sam Petitions and Grace Petitions LLC (2025); machine-printed affidavits.
Jim Houlis (137 / 1,345)	Name-match, Uncle Sam registrant AZ38829.*
William M. Vogt (136 / 1,165)	Name-match, Uncle Sam registrant AZ36596.*
Desmond Causey (17 / 152)	Name-match, Uncle Sam registrant AZ80451.*
Matthew Hohnholt (38 / 311)	One of only two circulators registered for the Heap petition (Grace Petitions LLC; Texas resident); swore "Maricopa" as his voting county over his Texas address on all 38 affidavits.
Duwayne Collier (3 / 9) + Veronica Sandoval (61 / 552)	Uncle Sam registrant/former employee and his wife, a former Uncle Sam worker (press); same Apache Junction address.
Diane Burns (3 / 26) + Corrina Kadlec (18 / 141)	Registered paid circulators, 2025 Mesa recall petition (Grace Petitions LLC / DAME America).

*Name-match only; confirm against county records before individual findings.

Three corroborating facts: **(a)** the twelve circulators above hold 58 lifetime portal registrations — Title 19 and municipal petitions, essentially all flagged *Paid*, several entered in the very weeks the Heap sheets were signed. This is a working paid crew, not a volunteer pool. **(b)** The Marasigans, as non-residents, were required to register for the Heap petition regardless of pay, A.R.S. § 16-315, and did not — 173 sheets, 1,614 lines, in violation of the statute. **(c)** Mr. Heap's filing physically contains three petition sheets nominating slate-mate David Marshall Sr. (Bates 79, 998, 999), each duplicating the signer list of the adjacent Heap sheet — and Mr. Marshall personally circulated Heap Bates 1460 — documenting a single professional operation running both campaigns' petitions.

II. THE REPORTS DO NOT DISCLOSE IT

Mr. Heap's committee's complete reported spending — verified against SeeTheMoney on August 8, 2026 — is **fourteen transactions totaling \$9,581.50**: \$6,880 to Uncle Sam Petitions (\$4,880 on 1/13/2026, \$2,000 on 2/14/2026), the \$644.47 Mesa Sign Shop purchase, \$1,000 to Moir & Associates, and ~\$1,057 in processing fees and supplies. No consultant. No other petition vendor. No intermediary whose reported compensation could absorb the cost of a statewide petition drive.

What that operation was worth is not speculative. Other 2026 clients of the same two firms reported, against their official signature counts:

Client	Vendor	Paid	Paper sigs	Per sig
Robert Wallace	Grace Petitions	\$5,130	993	\$5.17
Danielle Skranak	Uncle Sam	\$3,750	786	\$4.77
Debra Schinke	Uncle Sam	\$5,034	1,084	\$4.64
John Kavanagh	Grace Petitions	\$4,554	1,032	\$4.41
James Rogers	Grace Petitions	\$5,090	1,695	\$3.00
Julie Willoughby	Uncle Sam	\$3,001	1,574	\$1.91
Ralph Heap	Uncle Sam	\$6,880	15,074	\$0.46
Dave Marshall Sr.	(same network)	\$2,000	14,741	\$0.14

Each comparable divides the payment by *all* signatures the client filed, including any volunteer-gathered ones, so each is a **floor** on the vendor's true rate. No such assumption applies to Mr. Heap's side: his professional-tier counts were measured sheet by sheet. At the same vendors' documented range (\$1.91–\$5.17; median $\approx$ \$4.40), Mr. Heap's drive was worth **\$28,791 to \$77,933** — most likely about \$66,000 — against \$6,880 disclosed.

Two closing points on the reports:

- **The "independent expenditure" characterization is unavailable.** No IE report covers the drive: the only independent expenditures supporting Mr. Heap are three late-June 2026 filings totaling \$28,790.90 (Arizona Free Enterprise Club \$16,000; Freedom Club PAC \$7,880.50; Keep Arizona Free PAC \$4,910.40) — months after the drive ended in March. More fundamentally, even if a third party financed the gathering without any coordination, nomination petitions have value only in the candidate's hands: the candidate must "sign and cause to be filed" his petitions, A.R.S. § 16-311(A), and the delivery of the completed sheets to the campaign — whether directly or through any intermediary — is itself a contribution of a "thing of value," § 16-901(11), in kind at fair market value, § 16-901(32), which a participating candidate may not accept, § 16-941(A)(1). Acceptance of the goods, not the manner of their production, is the violation. The filing itself confirms the handoff occurred: the professional crew's sheets are part of the single petition submission Mr. Heap caused to be made — numbered by the Secretary of State as one production (Bates 1–1780) in which the crew's sheets appear alongside the candidate's own and his family's.
- **The report is the only disclosure the law provides.** For candidate petitions, A.R.S. § 16-315 requires registration only of non-residents; an in-state paid circulator files nothing. The candidate's campaign finance report therefore carries the entire burden of disclosing who was paid to gather his signatures — and Mr. Heap's discloses 46 cents a signature.

The conclusion is binary. Either the campaign made unreported expenditures outside its account (and, depending on amount, above its limit), A.R.S. §§ 16-941(A)(3), (A)(5), 16-948, or someone else paid, which is a prohibited in-kind contribution, § 16-941(A)(1). Either way the reports are false or incomplete, § 16-926, accruing penalties under § 16-942(B) and supporting the remedies of § 16-942(A)–(D).

III. THE COMMISSION SHOULD COMPEL DISCLOSURE

AZPIA cannot see invoices, payroll, or bank records; the Commission can. A.A.C. R2-20-210, -211. AZPIA proposes:

To the Heap campaign: (1) For each of the 76 circulators (Exhibit 3), state whether anyone compensated that circulator for the Heap petition — payor, amount, dates — and produce the records. (2) Identify who recruited, scheduled, supervised, and deployed the circulators, and who assembled and filed the sheets, including the interleaved Marshall sheets. (3) State what the \$6,880

to Uncle Sam Petitions bought, per the firm's invoices, and whether anyone other than the committee paid or subsidized the firm's work. (4) Identify who retained Grace Petitions LLC to register two circulators for the Heap petition and why no payment to Grace appears in the reports.

To Uncle Sam Petitions L.L.C. and Bruce Gorshe: (5) Produce payroll/contractor/payment records for the circulators named in Section I, August 2025–March 2026, identifying every petition each was paid to work. (6) State whether Mr. Gorshe personally circulated Heap sheets and who, if anyone, compensated him. (7) State whether any person directed that candidate-petition work be staffed so that no circulator registration — and thus no public record of the paying company — would exist. (8) Identify every person or entity that paid the firm in connection with the Heap or Marshall drives, directly or through any intermediary.

To Grace Petitions LLC: (9) Identify the client who engaged the firm on the Heap and Marshall petitions and produce the engagement and payment records. (10) Produce the firm's standard 2025–2026 rate sheets for candidate petition work.

Referral to the Secretary of State: (11) the Marasigans' unregistered non-resident circulation and Mr. Hohnholt's Maricopa attestations over a Texas residence, A.R.S. §§ 16-315, 16-321.

IV. THE MYERS ACCOUNT: THE SAME ACTORS, THE SAME SCHEME, PROPOSED BEFORE

As reported by KJZZ (August 4, 2026), sitting Corporation Commissioner Nick Myers stated that during his own 2022 campaign for this Commission he was offered off-the-books financing for exactly the category of spending now missing from Mr. Heap's reports — by the Arizona Free Enterprise Club: *"They said 'Go buy it and pay yourself back when you get your funding, and we will make sure you get your funding,'"* and by Senator Jake Hoffman personally: *"Jake offered to buy signs and said, 'You can pay me back, because you have to get your signs out now.'" What was proposed to Commissioner Myers, as he describes it, was a scheme to evade the Act's contribution and reporting rules. He refused. Senator Hoffman denies it: "Any notion that Yee or Kolodin have anything to do with this is a tinfoil hat conspiracy theory. Nick Myers is a liar and crazy person, which is presumably why he lost his reelection."*

The same actors are documented participants in Mr. Heap's candidacy:

- **Senator Hoffman recruited Mr. Heap and Mr. Marshall and organized their slate** (Arizona Capitol Times, 6/10/2025: "Hoffman recruited both"; KJZZ, 8/2026: "a state lawmaker and political consultant who recruited Heap"). His sworn financial disclosure lists four political-services firms he controls (Rally Forge LLC, 1TEN LLC, Forged Communications LLC, Forged Public Affairs LLC). Slate members Yee and Kolodin have paid Forged Communications \$121,037.30 and \$89,652.50 respectively (SeeTheMoney, verified 8/8/2026) — while Mr. Heap, a recruited candidate on the same slate, reports **no consultant of any kind**.
- **Senator Hoffman's own committee pays the petition network that staffed Mr. Heap's drive:** \$1,000 to Grace Petitions (11/21/2025) and \$2,746 to "Diane Burns dba Petition Pros" — Diane Burns being a registered paid circulator who personally circulated Heap sheets 928–930.
- **The Arizona Free Enterprise Club helped recruit Mr. Heap** (Arizona Capitol Times, 7/28/2026) and filed a \$16,000 independent expenditure supporting him in June 2026.

AZPIA takes no position on whose account of 2022 is true. But a Commissioner of this body has stated on the record that these actors proposed this scheme to him; those actors recruited and surround Mr. Heap; and Mr. Heap's reports exhibit precisely the gap such a scheme would produce. That is ample cause to examine, under oath, whether the arrangement described to Commissioner Myers is operating in the Heap campaign. AZPIA proposes that the Commission subpoena Senator Hoffman for testimony and simultaneously subpoena the records that will corroborate or contradict it:

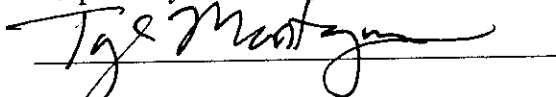

Testimony	Documents to test it (2025-2026)
His role in recruiting Heap and Marshall and managing the slate	Communications with the Heap/Marshall campaigns; slate strategy, budget, and coordination records
Whether he or any entity he controls rendered any service — consulting, signs, circulation coordination — to or for the benefit of the Heap campaign, and who paid	The four firms' client lists, engagements, invoices, accounting, and bank deposit records; any Heap- or Marshall-related work product
Whether he or his entities purchased, financed, or arranged Heap or slate signs, including any "pay me back" arrangement	Sign vendor contracts, invoices, payments, reimbursements; communications with printers/installers; rTEN's invoices for its reported "Signs"/"Sign installation" line items
The purpose of his committee's payments to Grace Petitions and Petition Pros, and any role in arranging slate circulation	Records behind those payments; communications with Grace Petitions, Uncle Sam Petitions, and Petition Pros re: 2026 candidate petitions

If the testimony is that neither he nor his firms touched the Heap campaign, the records will confirm it and the inquiry ends. If not, the Commission will have found the unreported vendor.

V. RELIEF REQUESTED

In addition to the relief in the Complaint, AZPIA requests that the Commission: (1) compel the disclosures in Section III; (2) subpoena Senator Hoffman and his firms per Section IV; (3) determine the fair market value of the circulation services received, using the sheet-level record supplied, and apply A.R.S. § 16-942(A)-(D); (4) obtain the Marshall campaign's petition and financial records to establish the scope and financier of the common operation; and (5) continue withholding Clean Elections funding pending resolution.

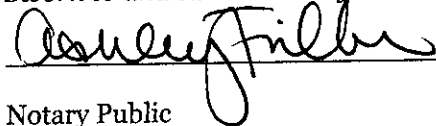

Respectfully submitted,

Tyler Montague

Circulator Analysis of Ralph Heap's 2026 Nomination Petitions — Factual Findings

Prepared 2026-08-07 for Arizona Public Integrity Alliance, supplementing the AZPIA complaint to the Citizens Clean Elections Commission dated August 3, 2026.

Every factual statement below traces to (a) a cited petition sheet image in the Secretary of State's production for records request 26-1269, (b) a Secretary of State registration record, or (c) a cited public document (see

`work/crossref\_sources.md` for URLs and access dates). Statements of inference are labeled as such, consistent with A.A.C. R2-20-203's distinction between personal knowledge and information and belief.

1. Method and verification

Source records: `CORP-R-HEAP-R-PAPER-Petitions.pdf` (3,342 pages = 1,671 sheets, Bates 1–1671) and `CORP-R-HEAP-R-PAPER-Petitions-Supplemental.pdf` (218 pages = 109 sheets, Bates 1672–1780), each sheet consisting of a signature front (up to 10 lines) and a circulator-affidavit back. Every affidavit was read visually from the scan; illegible or uncertain fields were transcribed with markers rather than guessed, and raw spellings were preserved separately from normalized names (`circulators.csv`, one row per sheet; `circulator\_summary.csv`, one row per circulator; name variants merged only where corroborated by an identical residence address).

Verification against official figures: the SOS "Valid Lines" stamps captured from the sheet fronts total **15,055**, against the Secretary of State's official count of **15,074 paper signatures** filed — a 99.87% match (the 19-line difference is attributable to a handful of heavily toner-obscured stamps). Rows bearing signer entries (including struck rows) total **15,272**. E-Qual electronic signatures (1,131; circulator: the candidate, by statute) are excluded from the roster.

Legibility: 1,778 of 1,780 affidavits were readable; 2 sheets have no circulator affidavit at all (Bates 2 and Bates 1778 — blank backs despite signed fronts).

A small number of fields ($\approx 1\%$) carry uncertain-reading flags, itemized in the `notes` column of `circulators.csv`.

2. Roster overview

76 distinct circulators account for the 1,780 paper sheets. Volume is highly concentrated: the top 10 circulators account for 9,308 signature lines (61%), and 38 circulators — the professional tiers A and B below — account for 13,108 of 15,272 lines (85.8%).

Tier	Circulators	Sheets	Signature lines	Share
A. Cross-referenced to paid-circulation operations (§3)	16	787	6,988	45.8%
B. Professional-pattern, no registration found (§4)	22	703	6,120	40.1%
C. Candidate and family (Ralph Heap 427; Denise Heap; John Heap)	3	75	536	3.5%
D. Other/apparent volunteers (local, low-volume)	35	215	1,628	10.7%

Top circulators by signature lines: James Woodruff 1,575; Jim Houlis 1,345;

Jaymar Marasigan 1,244; William M. Vogt 1,165; Victor Castillo 833; Karen Gary

Moons Rohde 589; Sandi Fleming 559; Veronica Sandoval 552; Lindsey Ann Vogt 510;

Vincent Wheeler 458.

3. Registration status (personal knowledge from public records)

- The SOS Circulator Portal lists exactly **two** registered circulators for the Ralph Heap petition: **Zyven Sobkowski** (AZ10115, NC resident) and Matthew Hohnholt (**AZ73851, TX resident**), both under Grace Petitions LLC (registered 02/07/2026 and 01/15/2026). Sobkowski appears on **zero** sheets in the filing. Hohnholt circulated 38 sheets (311 lines), writing "Maricopa" in the affidavit county box while listing his Conroe, Texas residence.

- **None of the other 74 circulators is registered for the Heap petition.**

Legal note (verified against current A.R.S. § 16-315, 2026-08-08): for

CANDIDATE petitions, registration is required only of non-resident

circulators; in-state circulators — paid or not — need not register. (Paid-circulator registration is compulsory for Title 19 petitions: initiatives, referenda, recalls.) The consequence: the candidate's campaign finance report is the only public record Arizona law provides of who was paid to gather a candidate's signatures — which is why the reporting question is the whole ballgame. The Marasigans, as out-of-state circulators, were required to register for the Heap petition and did not.

- Lifetime registration histories for the twelve cross-referenced circulators (pulled by Circulator ID, 2026-08-08; `work/registration\_histories.md`) show 58 combined rows across up to four cycles — initiative, referendum, recall, and municipal work, essentially all Paid-flagged — and zero candidate-petition registrations ever, with several registering for other petitions during the Heap circulation window itself. Both Marasigans are flagged out-of-state, making their unregistered Heap circulation a statutory defect under A.R.S. § 16-315 regardless of compensation.
- Cross-references (detail and sources in `crossref.csv`): 11 of Heap's circulators, responsible for 6,782 signature lines, are documented in SOS registrations or press as workers of the paid-circulation operations named in the complaint — Uncle Sam Petitions L.L.C., Grace Petitions LLC, or the Turning Point-backed Spilsbury recall (see §5):
 - **Bruce Gorshe** — owner of Uncle Sam Petitions L.L.C. — personally circulated at least one Heap sheet under a clearly legible name (Bates 1140), and five further sheets carry Gorshe-variant names at the firm's registered address, 1441 S. Lindsay Rd #1088, Mesa (Bates 1054, 1187, 1276, 1719, 1720).
 - **Karen Gary Moons Rohde** (67 sheets, 589 lines, all Cochise County) — Uncle Sam registrant AZ69109; her affidavit address is Uncle Sam Petitions' registered address (1441 S. Lindsay Rd #1088).
 - **Jaymar Marasigan** (132 sheets, 1,244 lines) and Nelmarericjohn

Marasigan (41 sheets, 370 lines) — Uncle Sam registrants AZ64211/AZ67099.

Nelmarericjohn Marasigan is the circulator whose Lombardo-petition signatures the Maricopa County Superior Court invalidated in April 2026 upon a showing that a felony conviction disqualified him from circulating; his eligibility while gathering 370 Heap lines is a question of the same character.

- **Victor Castillo** (102 sheets, 833 lines) — registrant AZ36957 under BOTH Uncle Sam Petitions (2025) and Grace Petitions (Spilsbury recall, 2025).

- **Jim Houlis** (137 sheets, 1,345 lines) and **Desmond Causey** (17 sheets, 152 lines) — name-match Uncle Sam registrants (AZ38829, AZ80451).

- **William M. Vogt** (136 sheets, 1,165 lines) — name-match Uncle Sam registrant AZ36596 (marked possible—verify).

- **Duwayne Collier** (3 sheets) — Uncle Sam registrant AZ92408, former Uncle Sam employee per press, 2026 "sham" Green Party candidate, and Grace Petitions registrant on the Spilsbury recall.

- **Veronica Sandoval** (61 sheets, 552 lines) — identified in press as Collier's wife and a former Uncle Sam Petitions worker; her affidavits list the same Apache Junction address as Collier's Heap sheets.

- **Diane Burns** (3 sheets) and **Corrina Kadlec** (18 sheets, 141 lines) — paid registrants on the Spilsbury recall (Grace Petitions / DAME America).

- Additional address link (possible — verify): **Robert T. Gauna** (24 sheets) and **Stephen J. Gauna** (1 sheet) give 1441 S. Lindsay Rd #2063 — the same complex as Uncle Sam Petitions' registered address, different unit.

4. Professional-operation markers on unregistered circulators (personal knowledge from the sheets)

Twenty-two further circulators (6,120 lines) exhibit one or more hallmarks of paid, professionally managed circulation while appearing in no registration record we located:

- **Machine-printed or pre-printed affidavits.** James Woodruff (163 sheets,

1,575 lines — the single largest circulator) and Victor Castillo submitted affidavits whose name/address fields are machine-printed, pixel-identical across runs of sheets, with only the signature in ink. Von Young's and Renae Young's printed blocks are misregistered outside the form boxes, leaving the actual address fields empty on every sheet.

- **Rubber-stamped affidavits.** Joel R. Mullins (38 sheets, 357 lines): name, county, and address applied by ink stamp on every sheet — crooked, doubled, or upside down on several, with the printed address boxes themselves blank. Renae/Von Young's earlier sheets are likewise stamped.
- **Pre-printed identity with corrections.** Lindsey Ann Vogt's affidavits carry pre-printed name/address text overwritten by hand; one sheet (564) lacks any street number.
- **High-volume, multi-county deployment** consistent with routed paid crews: e.g., Vincent Wheeler (50 sheets, all Cochise), Sandi Fleming (76 sheets across Pinal/Maricopa/Pima/Yavapai stamps), LaMonte Cavalier (43), Steve Rudick (41), Darlene Matlewsky (28).

Inference (labeled as such): these markers — identical machine-prepared affidavits, stamped identities, county-routed volume — are characteristic of a managed petition operation rather than independent volunteering. Whether these circulators were compensated, and by whom, is uniquely within the knowledge of the campaign and its vendors and is the subject of the requested compulsory process.

5. Links to the Turning Point-backed Spilsbury recall and the Marshall slate

- The 2025 recall of Mesa Councilmember Julie Spilsbury was funded and coordinated by Turning Point (documented in press; TPAAction operated tpaction.com/savemesa). Its petition (SOS serial RC2025-02, Mesa) lists 24 registered circulators — all flagged **paid** — under DAME America and Grace Petitions LLC, **the same firm registered on the Heap petition**. Four of

those 24 paid recall circulators also circulated Heap petitions: Duwayne Collier, Diane Burns, Corrina Kadlec, and Victor Castillo. This is a documented personnel bridge between Heap's signature operation and a Turning Point-funded field effort; it does not by itself establish who paid whom for Heap's signatures.

- **Marshall slate:** Heap's filing physically contains three petition sheets nominating slate-mate **David Marshall Sr.** (Bates 79, 998, 999), each duplicating the signer list of an adjacent Heap sheet (80, 996, 997) — the same signers signed both candidates' forms in one sitting. Marshall himself circulated Heap sheet 1460, and Heap's two registered circulators were registered for Marshall the same day. This corroborates the complaint's observation of a common professional operation behind the slate's nearly identical petition profiles.

6. Affidavit anomalies noted for the Commission's attention (personal knowledge)

- **Bates 1779–1780:** the original circulator's name and signature (Vanna Yazzie) are struck through and replaced with another circulator's name (Rochelle Werksman, initials "RW"); on 1779 no valid signature remains. Bates 1780 bears the handwritten margin note: **(I told her to fill out everything! HAHAAH!)**. A.R.S. § 16-321(D) requires the circulator who witnessed the signatures to complete and sign the affidavit.
- **Bates 2 and 1778:** signed signature fronts with entirely blank affidavit backs (stamped o valid lines).
- **Bates 779:** affidavit unsigned (blank signature box), Mohave-resident circulator, Maricopa signers, stamped o valid lines.
- **Bates 887:** PRINT NAME box shows one circulator (Glenda Embick) struck out and replaced by another (George DeHaven).
- **Bates 1245 et al.:** Matthew Hohnholt (TX resident, registered out-of-state

circulator) swears he is qualified to vote "in the county of Maricopa" on 38 affidavits listing his Texas residence.

- Numerous sheets where the used-line count exceeds the SOS valid-lines stamp due to struck-but-populated signer rows; per-sheet detail in `circulators.csv` notes.

7. Cost implication — same-vendor comparables and the complaint's framework

Same-vendor comparables (documented; Transparency USA itemizations through 06/30/2026, cross-checked against SOS filing counts; detail and URLs in `work/comparables.md`). What other 2026 clients of the same two firms reported paying, per paper signature filed:

Client (office)	Vendor	Reported paid	Paper sigs	\$/sig
Robert Wallace (Senate D3)	Grace Petitions	\$5,130	993	\$5.17
Danielle Skranak (House D2)	Uncle Sam	\$3,750	786	\$4.77
Debra Schinke (House D13)	Uncle Sam	\$5,034	1,084	\$4.64
John Kavanagh (Senate D3)	Grace Petitions	\$4,554	1,032	\$4.41
James Rogers (House D10)	Grace Petitions	\$5,090	1,695	\$3.00
Julie Willoughby (Senate D13)	Uncle Sam	\$3,001	1,574	\$1.91
Ralph Heap (Corp. Comm.)	Uncle Sam	\$6,880 (01/13 & 02/14/2026, coded "Petitions")	15,074	\$0.46
Dave Marshall Sr. (Corp. Comm.)	(same network)	\$2,000	14,741	\$0.14
Elijah Norton (Treasurer)	(same network; \$2,500 to DAME America)	\$0 petition-coded	25,814	\$0.00
Alexander Kolodin (Sec. of State)	(same network)	\$0	11,186	\$0.00

The vendors' retail clients — legislative candidates buying roughly 800–2,300 signatures — paid **\$1.91–\$5.17 per signature (median ≈ \$4.40)**. Every large-volume statewide campaign served by this same circulator network reported either a fraction of that rate (Heap, Marshall) or nothing at all (Norton, Kolodin, Swoboda \$0/13,991; Yee \$0/12,651; Lombardo and Collier \$0 — the latter two already the subject of press reports that Uncle Sam gathered their signatures unpaid on the books).

Methodological note (direction of error). The per-signature figures above divide each client's vendor payment by ALL paper signatures that client filed. To the extent a comparable candidate also filed volunteer-gathered signatures — as most presumably did — the true vendor rate per vendor-collected signature is HIGHER than the figure shown; each comparable is therefore a floor, and valuations built on the range are conservative. The Heap side of the comparison carries no such assumption: the professional-tier line counts used below were measured sheet-by-sheet from the circulator affidavits, not inferred. (Residual caveat in the other direction: a coded "Petitions" payment could conceivably cover services beyond signature collection; the tight \$3–\$5 clustering across six independent clients, consistent with press-reported market rates, limits this concern. Obtaining one or two comparables' petition sheets from the SOS would convert their floors into exact rates.)

Applying the documented same-vendor range to Heap's signatures:

Basis	Lines	@ \$1.91	@ \$4.40 (median)	@ \$5.17
All paper signatures filed	15,074	\$28,791	\$66,326	\$77,933
Tiers A+B (professional footprint)	13,108	\$25,036	\$57,675	\$67,768
Tier A only (documented paid-operation circulators)	6,988	\$13,347	\$30,747	\$36,128

(The complaint's original \$3–\$8 generic market range brackets the same

conclusion: Tier A alone at \$3 is \$20,964; Tiers A+B at \$8 is \$104,864.)

Heap's reported **\$6,880** is 9–24% of the fair market value implied by what the same vendors' other clients paid. AZPIA does not assert that any particular signature was gathered for pay; these figures frame the disparity the Commission can resolve with the campaign's and vendors' records.

8. Caveats

- Name-based cross-references marked "possible — verify" rest on name similarity only; the Circulator Portal publishes no addresses. County voter-file or

registration-affidavit comparison is recommended before any individual is named in a filing.

- The Bruce Gorshe attribution is clearly legible on one sheet (Bates 1140). A side-by-side comparison of high-magnification crops (2026-08-07, ``work/gorshe_crops/``) shows the five companion sheets at the firm's address are written in a hand consistent with the Bates 1140 exemplar — same distinctive capital-B and capital-G letterforms, same surname construction, and Bates 1719 repeats the firm's address inside the name box — but the first-name glyphs on those five sheets, read in isolation, remain ambiguous (Brock/Bruck/Buck). Confirmation from the original documents or a handwriting examiner is recommended before individual findings.
- Heap's reported payments to Uncle Sam Petitions are confirmed at \$6,880 directly from the Secretary of State's SeeTheMoney records (2026-08-08): \$4,880.00 on 01/13/2026 and \$2,000.00 on 02/14/2026. The committee's complete expense history is fourteen transactions totaling **\$9,581.50**, including the \$644.47 Mesa Sign Shop purchase and no consultant or other petition vendor. Also verified from SeeTheMoney the same day: Yee's committee paid Forged Communications \$121,037.30 (four payments, 3/3–7/21/2026); Kolodin's single committee ("Alex For Arizona," ID 100625, covering his Secretary of State run) paid Forged Communications \$89,652.50 (three payments) and shows zero petition-vendor payments — resolving the second-committee question.
- This analysis uses public records (petition filings, circulator registrations, court coverage) solely for election-law compliance analysis.

EXHIBIT 2 — Circulator Cross-Reference and Valuation Summary

Sources: SOS records request 26-1269 (1,780 petition sheets, Bates 1–1780); SOS Circulator Portal; SeeTheMoney (figures verified 8/8/2026); cited press (Exhibit 5). Sheet-level data: Exhibit 4. Prepared 2026-08-08.

Registration status: exactly 2 circulators are registered for the Heap petition — both out-of-state, retained through Grace Petitions LLC, as A.R.S. § 16-315 requires of non-residents. The 74 others filed nothing; in-state circulators need not register for candidate petitions, so **the campaign finance report is the only public record of paid candidate circulation** — and it discloses \$6,880.

Documented paid-industry personnel — 45.8% of all lines (sheets / lines)	Cross-reference
Bruce Gorshe (6 / 59)	Owner, Uncle Sam Petitions L.L.C. — the one petition vendor Heap reported paying; circulated personally (Bates 1140 clearly legible; 5 companion sheets at the firm's address in a consistent hand — verify from originals)

The only independent expenditures supporting Heap (\$28,790.90 total: AFEC \$16,000; Freedom Club PAC \$7,880.50; Keep Arizona Free PAC \$4,910.40) were filed 6/29–6/30/2026, months after the drive ended.

Compiled 2026-08-06. All facts below are from public, citable sources; each bullet lists its source URL and access date. Facts are DOCUMENTED unless explicitly marked "hypothesis-tier". Do not treat portal data-field interpretations as legal conclusions.

1. Arizona SOS Circulator Portal — mechanics

Portal location and structure

- Home page: <https://apps.azsos.gov/apps/election/circulatorportal/> (accessed 2026-08-06). Public search page: <https://apps.azsos.gov/apps/election/circulatorportal/Home/Search> — "Circulator Registrations," covering the 2018 cycle forward. A separate link "View Circulator Registrations Prior to the 2018 Election Cycle" points to [/apps/election/circulatorportal/Home/Historical](https://apps.azsos.gov/apps/election/circulatorportal/Home/Historical).
- The search page is a single DataTables grid showing, as of 2026-08-06, **29,197 registration rows** ("Showing 1 to 20 of 29,197 entries"). Columns: Election Cycle, Circulator Name, Circulator ID, Name of Candidate or Petition Serial Number, Petition Jurisdiction, Company Working For, Out-of-State, Paid, Petition Added, Date Unregistered. [Source: <https://apps.azsos.gov/apps/election/circulatorportal/Home/Search>, accessed 2026-08-06]
- **Bulk export exists:** the page has an "Export All To CSV" button (client-side button on the search page). [Same URL, accessed 2026-08-06]
- **Search mechanics:** a single free-text "Search:" box filters server-side across visible columns, including Circulator Name AND "Company Working For" (verified: "Uncle Sam" matches company names; "Sobkowski" matches circulator names). One registration row exists per circulator-per-petition; a circulator keeps one Circulator ID (format `AZnnnnn`) across cycles.
- **Data endpoint (documented for citation/reproducibility):** the grid is fed by `POST [https://apps.azsos.gov/apps/election/circulatorportal/Home/GetAllPetitions/`](https://apps.azsos.gov/apps/election/circulatorportal/Home/GetAllPetitions/) with standard DataTables form parameters (`draw`, `columns[i][data]`, `order`, `start`, `length`, `search[value]`). JSON response fields per row: `ElectionCycle, CirculatorName, CirculatorId, CandidateOrPetition, JurisdictionName, OrganizationName, IsNotResident, IsPaid, RegisteredDate, UnregisteredDate`, plus `recordsTotal`/`recordsFiltered`. [Observed via browser network inspection of the public page, 2026-08-06]
- Caveat: the mapping of the JSON boolean fields (`IsNotResident`, `IsPaid`) to the grid's "Out-of-State"/"Paid" checkmark columns was not independently confirmed; cite the rendered portal page, not raw JSON, for paid/out-of-state status in any exhibit.

Example lookup 1 — "Zyven Sobkowski" (portal search "Sobkowski", accessed 2026-08-06)

- Sobkowski, Zyven — Circulator ID **AZ10115** — 2026 cycle: registered 02/07/2026 for **Ralph Heap (Statewide)** under **Grace Petitions LLC**. Same-day registrations (all 02/07/2026, all Grace Petitions LLC unless noted) for: John Kavanaugh, Elijah Norton, Joseph Chaplik, Cody Reim, Dan Diaz, Jay Schlum, Dave Marshall Sr., Greg Roeberg, Kimberly Yee, Bob Littlefield, Barry Graham, Michelle Ugenti-Rita, Alexander Kolodin; and David Schweikert under **Direct Effect**. Prior cycle: 2024 registration for Robert F. Kennedy Jr. (Federal) under "Public Appeal."
- [Source: <https://apps.azsos.gov/apps/election/circulatorportal/Home/Search>, search term "Sobkowski", accessed 2026-08-06]

Example lookup 2 — "Matthew Hohnholt" (portal search "Hohnholt", accessed 2026-08-06)

- Hohnholt, Matthew — Circulator ID **AZ73851** — 2026 cycle: registered 01/15/2026 for **Ralph Heap ("State" jurisdiction)** under **Grace Petitions**. Also registered (mostly Grace Petitions; some Direct Effect) for: Eric Sloan, Robert Michael Wallace, Teri Hourihan, Thomas "Jay" Feely / Jay Feely, Crystal Carroll, Gina Swoboda, John Kavanaugh, Alexander Kolodin, Michelle Ugenti-Rita, Barry Graham, Bob Littlefield, Kimberly Yee, John Trobough, Greg Roeberg, Dave Marshall Sr., Jay Schlum. Registration dates span 01/07/2026–03/09/2026.
- [Source: <https://apps.azsos.gov/apps/election/circulatorportal/Home/Search>, search term "Hohnholt", accessed 2026-08-06]
- Method note: the quick-search box appends text if not cleared; an initial "Hohnholt" query falsely returned "No matching records found" because stale text remained in the field. Re-run cleanly, the records above returned. Any negative result from this portal should be re-verified with a clean query.

- Caveat (documented limitation, not speculation): this list captures only registrations where the circulator typed an "Uncle Sam..." variant in the Company Working For field. Circulators working for the firm who entered a different/blank company name, or who were unpaid Arizona residents (not required to register), would not appear. It is NOT a complete roster of the firm's workforce.

Press coverage of 2026-cycle work

- "Collier's yard signs direct anyone with issues to contact his former employer, Uncle Sam Petitions, which gathers signatures for candidate petitions and installs signs nearly exclusively for Republican candidates. Uncle Sam Petitions gathered signatures for both candidates [Lombardo and Collier] to make it on the ballot, but neither reported paying the business." - Same article: Duwayne Collier's wife **Veronica Sandoval** (shares an address with him in Apache Junction) "also previously worked for Uncle Sam Petitions"; Collier paid her \$10,000 on June 17 and \$10,000 on July 2, 2026 for "campaign management." [Same URL, accessed 2026-08-06]

- Uncle Sam Petitions owner Bruce Gorshe has donated nearly \$4,500 to Republican campaigns since 2019, including Trump campaigns; Uncle Sam's 2026-cycle circulators registered with the state, including Duwayne Collier, are listed as paid circulators (per Tucson Sentinel/Arizona Mirror reporting on the Lombardo signature challenges). - Prior-cycle context (2024): Chandler candidates OD Harris and Christine Ellis paid Uncle Sam Petitions \$4,700 and \$4,800 for signature gathering and survived ballot challenges; article identifies Bruce Gorshe as an officer. 3. 2026 "sham Green Party" ballot challenge (Lombardo / Collier)

The candidates and the dispute

- Risa Lombardo (Green Party candidate for governor) and Duwayne Collier (Green Party candidate for secretary of state) are called "sham"/"fraud" candidates by the Arizona Green Party, which says it has no affiliation with them (nor with gubernatorial filer Lisa Castillo). [Sources: <https://azmirror.com/2026/04/15/risa-lombardo-sold-maga-merch-now-shes-running-for-governor-as-a-green-party-candidate/> (Arizona Mirror, Apr 15, 2026); https://www.gp.org/arizona_green_party_warns_of_sham_candidates; both accessed 2026-08-06]
- Challenges to Lombardo's petitions: filed by Democratic activist **Craig Beckman** and No Labels gubernatorial candidate **Teri Ann Hourihan**, Maricopa County Superior Court, before **Judge Melissa Iyer Julian**. Julian dismissed Hourihan's challenge April 13, 2026; April 16, 2026 ruling confirmed 1,156 signatures already invalidated by county recorders and invalidated 140 more; Lombardo kept 1,954 valid of 3,250 (1,771 required) and stayed on the ballot. Lombardo was represented by Republican election attorneys **Tim La Sota** and **Kory Langhofer**. [Source: Arizona Mirror brief, Apr 20, 2026, <https://azmirror.com/briefs/green-party-governor-candidate-her-own-party-called-a-sham-survives-two-ballot-challenges/>, accessed 2026-08-06]
- Uncle Sam Petitions collected signatures on Lombardo's behalf, per the lawsuits challenging her signatures. Circulators named in the challenge rulings/coverage

- **Nelmarericjohn Marasigan** — all of his signatures invalidated after Beckman showed he had been convicted of a felony, disqualifying him from circulating. [Source: Arizona Mirror brief, Apr 20, 2026, URL above, accessed 2026-08-06]

- Cross-reference (documented): SOS Circulator Portal lists "Marasigan, Nelmarericjohn," AZ67099, registered 09/18/2025 under **Uncle Sam Petitions LLC** for Tolleson petitions 2025-214-001/002. [Portal search "Uncle Sam", accessed 2026-08-06]

- **Eduardo Sandoval** — 48 signatures invalidated after the resident of the address he listed on his petitions testified she barely knew him and he had never lived there. [Source: Arizona Mirror brief, Apr 20, 2026, URL above, accessed 2026-08-06]

- Cross-reference (documented negative): a portal search for "Sandoval" on 2026-08-06 returned NO 2026-cycle registration for any "Sandoval, Eduardo" (2026 Sandovals returned: Neveah AZ25392 and Abdu AZ93076, both FieldWorks LLC / I-09-2026; and **Veronica Sandoval, AZ21285, registered 03/25/2026 for I-10-2026 under Petition Partners** — note Section 2's Veronica Sandoval identification in press; do not assume same person without further verification).

- Two additional unnamed circulators: Beckman alleged they were felons but the court found he only showed name matches, not identity; their signatures were not struck. One further unnamed circulator's address allegation collapsed when his wife testified she had lied to the private investigator. [Same Arizona Mirror brief, accessed 2026-08-06]
- **Duwayne Collier's own petition circulators** (portal search "Collier," 2026 cycle, accessed 2026-08-06): Treveon Weston (AZ72716), Chakkim Israel (AZ22379), Tahira Ingram (AZ38191), Tracy Peterson (AZ51110) — all listing company "**Canyon State Marketing**," registered 03/17-03/21/2026 for candidate "Duwayne Collier."
- **Duwayne Collier as circulator** (portal, same search): Collier, Duwayne, AZ92408 — registered under **Uncle Sam Petitions LLC** (Tolleson 2025-214-001/002, 08/27/2025), under **Grace Petitions LLC** (petitions RC2025-02 on 04/18/2025 and RV2025-02 on 04/03/2025), and under **Petition Partners** (I-10-2026, 03/24/2026). This is a documented registration-record link between Collier and Grace Petitions LLC — the same firm registered for the Ralph Heap petition (Section 1 lookups).
- **Documented negative:** portal search for candidate name "Lombardo" (2026-08-06) returned **zero** registration rows — i.e., no paid or out-of-state circulator registered in the portal naming Lombardo's petition. (Registration is only required for paid and/or non-resident circulators; absence of registrations does not mean no circulators worked her petition.)
- Related challenge coverage naming other challenged candidates/attorneys: Roy Herrera, Austin Yost, Sambo Dul, Kelleen Mull (challenger attorneys); challenged third-party candidates Hugh Lytle, Michael Zepeda, Christopher Ajluni, Iman Bah, Jessie Martinez, David Redkey, Monica Alponete, Teri Hourihan. Money-flow findings in press (context for complaint)

- Lombardo and Collier together reported paying more than \$1.2 million to **Bootstrap Campaigns** (Las Vegas NV, incorporated May 12, 2026; officers listed at creation: David Wilson (pres/sec/dir) and Bryan McPartlan (treasurer), amended 10 days later to Christopher Silva in all four offices). Services billed included "petition gathering and sign printing and installation" — though Lombardo's petitions were submitted in May, weeks before the company existed. Neither candidate reported paying Uncle Sam Petitions despite it having gathered their ballot-qualification signatures. Other payees: Financial and Treasury Services LLC (Tim Sifert), Gigs AZ (Jose Acuna), Hunt On Consulting (Sheridan, WY), Tim La Sota (\$4,415, June 24). [Sources:

4. Turning Point Action 2026 Arizona field / ballot-chasing staff

All entries in this section are **hypothesis-tier: possible — verify**. No public source found on 2026-08-06 names individual 2026 Arizona ballot-chase field staff.

- TPAction's "Chase the Vote" 2026 Arizona operation is publicly documented as an organization (not by staff name): expanded field operation, full-time paid ballot-chasing positions, trainings, weekly "Super Chase" events in Mesa, Gilbert, Scottsdale, plus recruitment in Tucson, Sahuarita, Marana, Catalina Foothills, Prescott, Benson, Nogales. [Sources: KGUN9, <https://www.kgun9.com/news/local-news/turning-point-action-opens-chase-the-vote-operation-in-arizona-for-2026/>; TPAction program pages <https://www.tpaction.com/chasethevote> and <https://www.tpaction.com/VOTEARIZONA>; all accessed 2026-08-06]
- Public job postings for "Ballot Chase Representative" roles across Arizona (Tempe/ASU 85281/85288, Pine/Gila County, Rio Rico 85648) confirm hiring but list no names. [Sources: <https://jobs.discovergilacounty.com/job/w6uwpp/ballot-chase-representative/pine/az>; <https://www.careerbuilder.com/job-details/rio-rico-ballot-chase-representative-85648-rio-rico-az--4d5ef2b8-8aeb-4455-9b9e-fcbdc828425e>; accessed 2026-08-06]
- Incidental named link (hypothesis-tier: possible — verify): Arizona Rep. **Justin Olson** is described as "an employee of Turning Point USA" (the affiliated nonprofit, not TPAction's field program) in Arizona Mirror's Jul 13, 2026 article (URL in Section 3). No sourced connection to signature gathering.
- **Documented negative:** searches on 2026-08-06 found no TPAction announcement, hiring page, or press item naming individual 2026 Arizona ballot-chase staff, and no public reporting tying named TPAction staff to circulator registrations for the Heap petition. The SOS Circulator Portal quick-search matches company names, so a manual portal search for "Turning Point" (not run to completion here) is the next verification step.

5. Ralph Heap campaign finance reports (SeeTheMoney / SOS portal)

- Heap's 2026 committee reports are published as PDFs under <https://seethemoney.az.gov/PublicReports/2026/> — e.g., "Campaign Finance Report, Ralph Heap for Corporation Commissioner": <https://seethemoney.az.gov/PublicReports/2026/D4620F47-8CF9-44CB-BF25-292E3658A202.pdf> (surfaced by search 2026-08-06; direct parse PENDING — see status note).

- The specific ~\$6,880 in payments to Uncle Sam Petitions L.L.C. was NOT yet verified against the portal at time of writing (fetch of Transparency USA payee page blocked, 403; SeeTheMoney PDF parse pending). **Status: UNVERIFIED as of 2026-08-06.**
- Related, documented (press): Heap, a Republican candidate for Arizona Corporation Commission, faces campaign-finance complaints; complainant **Lisa Everett** (West Valley Republican) filed with both the SOS and the Clean Elections Commission, alleging Heap reported only a single **\$644.47** expenditure for signs at **Mesa Sign Shop** while she documented **184 signs** statewide; complaint quote: "Upon information and belief, this modest sum does not plausibly approximate the fair market value of the hundreds of Heap Campaign signs that are known to be in circulation." Heap agreed to Clean Elections participation (up to ~\$370,000 public funding), then sought to withdraw before funding came through; he reportedly refused to sign the affidavit affirming his reports' accuracy. 34. Exact Uncle Sam Petitions payment amounts/report periods in Heap's SeeTheMoney reports (~\$6,880 per complaint) — pending.

6. Julie Spilsbury recall (Mesa) circulators

Compiled 2026-08-07. Portal data pulled from the rendered public search page (see method note at end of section).

6.1 The recall itself (documented, from press/reference coverage)

- Recall target: Julie Spilsbury, Mesa City Council District 2. Recall petition filed by Mesa resident **JoAnne Robbins** on **January 30, 2025**. [Source: [https://ballotpedia.org/Julie_Spilsbury_recall,_Mesa,_Arizona_\(2025\)](https://ballotpedia.org/Julie_Spilsbury_recall,_Mesa,_Arizona_(2025)), surfaced via web search, accessed 2026-08-07]
- Signatures: Robbins submitted petitions to Mesa City Hall on **May 27, 2025 — 5,235 raw signatures** submitted (~3,100 needed); Maricopa County Recorder verified **3,858** valid vs.

3,070 required. - Election: special recall election **November 4, 2025; Dorean Taylor defeated Spilsbury 52.6%–47.4%**; Taylor's campaign was partially funded and heavily promoted by **Turning Point Action**. [Sources: <https://azcapitoltimes.com/news/2025/11/07/turning-point-action-finds-victory-in-mesa-recall/>; [https://ballotpedia.org/Julie_Spilsbury_recall,_Mesa,_Arizona_\(2025\)](https://ballotpedia.org/Julie_Spilsbury_recall,_Mesa,_Arizona_(2025)); <https://www.kjzz.org/elections/2025-11-05/mesa-councilwoman-concedes-defeat-in-a-recall-election-triggered-by-turning-point-usa>; all surfaced via web search, accessed 2026-08-07]
- Turning Point involvement (documented in press): Mesa Tribune: "Turning Point USA, a national conservative advocacy organization, funded and helped coordinate the recall" [Mesa Tribune URL above, accessed 2026-08-07]. TPUSA helped collect signatures, sent texts/emails opposing Spilsbury, and canvassed against her (per Politico reporting of Oct 28, 2025, as summarized by Ballotpedia); TPUSA/TPAction held "Super Chase" events in Mesa parks through October 2025, and TPAction ran a dedicated "Save Mesa" recall page at <https://www.tpaction.com/savemesa>. Stated grievances in coverage: votes on the "Off the Streets" homeless-hotel purchase, council pay raise, utility rate increase; critics also cited her Kamala Harris endorsement and LGBTQ+-protection support. [Sources: [https://ballotpedia.org/Julie_Spilsbury_recall,_Mesa,_Arizona_\(2025\)](https://ballotpedia.org/Julie_Spilsbury_recall,_Mesa,_Arizona_(2025)); <https://mesalegend.com/turning-point-usa-backs-recall-effort-against-mesa-councilwoman-over-homeless-housing-harris-endorsement/>; <https://www.kjzz.org/elections/2025-07-10/mesa-sets-nov-4-date-for-turning-point-backed-city-council-recall-election>; <https://www.tpaction.com/savemesa>; all surfaced via web search, accessed 2026-08-07]
- Paid circulators (documented in press): "about 20% were gathered by paid circulators, which is legal" — estimate attributed by the Mesa Tribune to Mesa Councilman Rich Adams, who also estimated ~40% of signatures came from volunteers living outside Mesa (Scottsdale, Phoenix, Tempe, Tucson). [Source: https://www.themesatribune.com/news/mesa-recall-effort-spills-into-council-chambers/article_36c1326a-4c20-422b-bfa2-28be2f5112a2.html, accessed 2026-08-07 via automated fetch summary — re-verify exact attribution by manual read before quoting in an exhibit]
- Petition serial number: no press/official source found on 2026-08-07 that publishes the recall petition's serial number. **Hypothesis-tier (strong circumstantial): the serial is RC2025-02 (Mesa)** — see 6.2: the portal's only 2025 recall-format serial is RC2025-02/"RC 2025-02"/RV2025-02, all with Petition Jurisdiction **Mesa**, with registrations spanning 02/06/2025–05/09/2025, squarely inside the Spilsbury recall's Jan 30–May 27, 2025 circulation window; no other Mesa recall in that window is reported to have circulated to submission. Confirmation should come from City of Mesa records (e.g., Mesa Resolution No. 12400 calling the recall election, <https://mesa.legistar.com/View.ashx?M=F&ID=14339628&GUID=945830F8-D110-48F2-9A2C-FBF042A89845> — not yet parsed; see Outstanding items).

6.2 Circulator Portal registrations for serials RC2025-02 / "RC 2025-02" / RV2025-02 (all Petition Jurisdiction = Mesa)

[Source for everything in 6.2: <https://apps.azsos.gov/apps/election/circulatorportal/Home/Search>, searches "Spilsbury", "RC2025-02", "RV2025-02", and "2025-0", accessed 2026-08-07]

- Search "Spilsbury" returns **no** registrations for the recall petition (only an unrelated 2020 circulator, Zachary Spilsbury, AZ82533) — i.e., the recall petition is listed in the portal **only by serial number**, which is why it was invisible to name searches.
- The three serial spellings together return **31 registration rows for 24 distinct circulators**. ALL rows: Paid = yes; Out-of-State = no. (Portal cycle tags split 2024/2026 across the Mar 2025 cycle rollover; all rows are the same Mesa petition serial.) Registration dates run **02/06/2025 – 05/09/2025**.
- Companies ("Company Working For"), by distinct circulator:

- **DAME America** (variants "D.A.M.E. America"/"DAME AMERICA"/"Dame America"): 20 of 24 circulators registered under it at some point.

- **Grace Petitions LLC** (variants "Grace Petitions", "Grace Petitions LLC."): 7 circulators — all Grace registrations dated 03/06–05/09/2025, i.e., the late phase of circulation.

- **"Diane Burns"** entered as the company name: 1 (Corrina Kadlec's 04/07/2025 re-registration) — Diane Burns is herself circulator AZ19625, registered under Grace Petitions.

- No public press source found on 2026-08-07 documenting what "DAME America" is (no ACC/press hit for "DAME America" + petitions); entity identification is an outstanding item.

- Full roster (name — ID — company/companies (registration dates); u = later unregistered):

1. Hamilton, Merissa — AZ20792 — D.A.M.E. America (02/06/2025)
2. Johnson III, Kenneth — AZ95599 — DAME America (02/13, u 04/29); Grace Petitions LLC (04/29)
3. Malloque, Jeanette — AZ60031 — D.A.M.E. America (02/19)
4. Schultz, Andrea — AZ54959 — DAME America (02/20)
5. Schultz, Fred — AZ49937 — DAME America (02/20)
6. Puhlmann, Charmon — AZ86256 — DAME America (02/21)
7. Stansbarger, Evelyn — AZ82805 — D.A.M.E. America (02/21)
8. Root, Ralph — AZ93209 — DAME America (02/23)
9. **Kadlec, Corrina — AZ30169** — DAME America (02/24); "Diane Burns" (04/07)
10. Paulk, Kathrine — AZ34419 — DAME America (02/24)
11. Hall, Kathleen — AZ33872 — Dame America (02/25)
12. Imperato Jr., William — AZ65570 — DAME America (02/25)
13. Speer, Melanie — AZ89751 — DAME America (03/01)
14. Acosta, Barbara — AZ18838 — DAME America (03/01)
15. **Castillo, Victor — AZ36957** — Grace Petitions (03/06); Grace Petitions LLC (04/07)

16. Waters, James — AZ86255 — DAME America (03/06)
17. Wadsack, Justine — AZ97937 — DAME America (03/07, u 04/05)
18. Wallace, Robert — AZ60399 — DAME America (03/08)
19. Magnifico, Stephen — AZ13774 — DAME America (03/17); Grace Petitions LLC (04/10)
20. Johnson, Ryan — AZ30555 — DAME America (03/25)
21. Fortna, Chad — AZ82628 — D.A.M.E. America (04/01); Grace Petitions LLC (05/09)
22. **Collier, Duwayne — AZ92408** — Grace Petitions LLC: serial **RV2025-02** (04/03) and serial **RC2025-02** (04/18) — the Section 3 registrations, now resolved: both serials are the Mesa recall petition listing
23. **Burns, Diane — AZ19625** — Grace Petitions LLC. (04/18)
24. Shinn, Kimber — AZ66060 — serial spelled "RC 2025-02": Grace Petitions LLC (04/08), Grace Petitions (04/18)

- **RV2025-02** exists as exactly one row (Collier, 04/03/2025, Mesa, Grace Petitions LLC). Hypothesis-tier: RV2025-02 is either a companion/reissued serial for the same Mesa recall or a self-entry typo for RC2025-02 (circulators type the serial themselves — cf. the "RC 2025-02" spelling variant); no separate Mesa petition with that serial was found.
- Identification notes (hypothesis-tier: possible — verify): "Wadsack, Justine" matches the name of the former Arizona state senator (Tucson); "Hamilton, Merissa" matches the name of the EZAZ.org founder and 2025 candidate; the portal publishes no addresses, so these are name matches only.
- Significance for the complaint (analysis, not a source fact): **Grace Petitions LLC — the firm whose circulators registered for the Ralph Heap petition (Section 1) and Duwayne Collier's employer per Section 3 — was also fielding paid circulators on the Turning Point-backed Spilsbury recall from March–May 2025.**

6.3 Overlap with the Heap circulator roster (sheets 1–1100, C:\Users\tjmon\Downloads\Heap_Petitions\work\batches*.psv)

Comparison run 2026-08-07: 24 recall-circulator names vs. distinct circulator names in PSV column 4 (spelling variants allowed). **4 of the 24 recall circulators also appear in the Heap roster.** No additional near-miss spellings found. Caveat applying to all four: the Circulator Portal publishes no addresses, so name-to-sheet identity rests on the corroborations stated; final confirmation (e.g., county voter-file or notarized affidavit comparison) is recommended before filing.

38. **Collier, Duwayne** (recall: AZ92408, Grace Petitions LLC) — Heap sheets **898–899** (address 215 S Stardust Ln, Apache Junction AZ 85120; 1 signature each; typed-name box contains a struck-through cursive signature). **Documented** — press (Sections 2–3) places Duwayne Collier in Apache Junction, and his portal registrations tie him to Grace Petitions, the firm registered on the Heap petition.
39. **Burns, Diane** (recall: AZ19625, Grace Petitions LLC.) — Heap sheets **928–930** (527 W. Whiteley St, Apache Junction 85120). **Documented (cluster corroboration)** — same uncommon-pairing name; registered under Grace Petitions for the recall; Heap sheets are from

Apache Junction, same town as fellow Grace circulator Collier; she is also named as the "company" on Kadlec's recall re-registration.

40. **Kadlec, Corrina** (recall: AZ30169, DAME America then "Diane Burns") — Heap sheets **1033–1050** (18 sheets; 5355 E Des Moines St, Mesa AZ 85205). **Documented (cluster corroboration)** — Mesa resident consistent with a Mesa recall circulator; her recall-registration "company," Diane Burns, is herself a Heap circulator on sheets 928–930.
 41. **Castillo, Victor** (recall: AZ36957, Grace Petitions) — Heap sheets **309, 384, 393–395, 412, 415–418, 731–734, 740–749, 785–786, 812–814, 816–818, 964–966**, plus sheet **1057** as spelling variant "Victor Castello" (36 sheets total; 2188 E Spruce Dr, Chandler AZ 85286; batch notes repeatedly flag affidavit fields as typed/stamped rather than handwritten). **Documented (cluster corroboration)** — same name registered under Grace Petitions for the recall AND under Uncle Sam Petitions for Tolleson 2025-214-001/002 (Section 2, item 30, same ID AZ36957); i.e., this ID moved through both firms already central to the complaint.
- Documented negative: the other 20 recall circulators (including Hamilton, Wadsack, Fortna, Magnifico, Shinn, both Schultzes) do NOT appear in Heap roster sheets 1–1100 under any spelling checked.
 - Related but NOT recall overlaps (for clarity): Heap-roster names Desmond Causey, Jaymar Marasigan, Nelmarericjohn Marasigan, Karen Gary Moons Rohde, Jim Houlis, Lindsey Vogt, and Veronica Sandoval match Section 2's Uncle Sam list or Section 2/3 press figures, not the recall roster.

Method note (6.2 data): direct POST to the portal's GetAllPetitions endpoint is Cloudflare-blocked to non-browser clients (verified 2026-08-07); data above was retrieved 2026-08-07 by running the DataTables search inside the rendered public page at <https://apps.azsos.gov/apps/election/circulatorportal/Home/Search> (searches: "Spilsbury", "RC2025-02", "RV2025-02", "2025-0"; page length raised to show all rows). Per the Section 1 caveat, paid/out-of-state values here derive from the page's own data feed (`IsPaid`/`IsNotResident`); for exhibits, screenshot the rendered grid.

7. Vendor pricing comparables (full detail: [work/comparables.md](#); SOS counts: [work/sos_2026_filings_extract_notes.md](#))

Compiled 2026-08-07. Payments from Transparency USA payee/candidate pages (aggregating SeeTheMoney; data through 06/30/2026), loaded successfully in the in-app browser 2026-08-07. Paper-signature counts from the official SOS PDF "2026 Candidate Nominations and Petitions Filed" (azsos.gov/media/666), text-extracted 2026-08-07; every row validates E-Qual + Paper = Total.

Vendor lifetime totals (Transparency USA, all cycles): Uncle Sam Petitions \$263,907 from 19 committees; Grace Petitions (Apache Junction) \$17,552 from 6 committees. Each payee page groups exactly one alias.

Heap verified: \$4,880 (01/13/2026) + \$2,000 (02/14/2026), both categorized "Petitions," from Ralph Heap for Corporation Commissioner = **\$6,880 — the complaint figure now confirmed against the aggregator** (plus \$1,400 on 03/31/2024 "Other" via Conservatives for Heap).

Payments predate the bulk of circulation (his petition filed 03/19/2026 with 15,074 paper sigs → **\$0.456/paper sig**).

Same-vendor 2026 market cluster (documented: payment + official paper count):

Wallace \$5,130/993 = **\$5.17/sig**; Skranak \$3,750/786 = **\$4.77**; Schinke \$5,034/1,084 = **\$4.64**; Kavanagh \$4,554/1,032 = **\$4.41**; Rogers \$5,090/1,695 = **\$3.00**; Willoughby \$3,001/1,574 = **\$1.91** (possible partials below that: Hoffman \$0.96, Richardson \$0.79, Carter \$0.59). Press adds 2024 municipal: Mesa mayoral candidate \$5,600 for signature gathering (Mesa Tribune 05/02/2024); Chandler's Harris \$4,700 / Ellis \$4,800 (\$2). **Range: ≈\$1.91–\$5.17/paper sig, median ≈\$4.40. At those rates Heap's 15,074 paper sigs = \$29k–\$78k FMV vs. \$6,880 reported (9–24% of market). Marshall Sr.: \$2,000/14,741 = \$0.136/sig (3–7% of market).**

Zero-payers (documented negatives, through 06/30/2026): despite Grace circulators registered on their 2026 petitions (§1), NONE of these committees paid either vendor anything: **Norton (State Treasurer — NOT Corp Comm as earlier assumed; 25,814 paper, the largest statewide paper haul captured; only petition-plausible item \$2,500 to Dame America 03/10/2026 — the \$6 recall firm — plus \$1.03M to Rdp Strategies "Consultants," a possible pass-through, hypothesis-tier); Kolodin (SOS, 11,186 paper, complete payee list captured — no petition vendor at all);** Swoboda (13,991), Yee (12,651), Schlum (929), Reim (1,066). Mirrors §2's Lombardo (3,243 paper)/Collier (3,617) zero-payment pattern. Not in SOS filing list (county/municipal or didn't file): Ugenti-Rita, Graham, Littlefield, Vadasz (paid Uncle Sam \$3,850 03/02/2026 but filed no SOS petition), Dan Diaz, Roeberg. Chaplik is federal (FEC pull pending).

Caveats: all dollar figures are Transparency USA's aggregation — confirm at seethemoney.az.gov (manual; blocked to automation) before filing; data ends 06/30/2026, so later-reported payments must be checked; differently-spelled payee entries would sit on separate ungrouped pages; Kolodin might have a second (SOS-race) committee not yet linked by the aggregator.

8. Jake Hoffman — documented role re: Heap campaign and slate

Compiled 2026-08-08. Facts are DOCUMENTED unless marked hypothesis-tier. Section complete; remaining manual pulls listed in 8.8.

8.1 Recruitment and announcement of Heap's Corporation Commission candidacy (documented)

- KJZZ (Camryn Sanchez, June 13, 2025): Sen. Jake Hoffman — described as a far-right state senator, leader of the Legislature's Freedom Caucus, chair of two Senate committees, and RNC national committeeman for Arizona — endorsed/organized a 2026 slate including **David Marshall and Ralph Heap for Corporation Commission** (challenging GOP incumbents Kevin Thompson and Nick Myers), Andy Biggs for governor, and Kimberly Yee for Superintendent of Public Instruction. Hoffman quote: "That is a role of people who serve in positions like mine, is to make sure that we have good candidates." [Source: <https://www.kjzz.org/politics/2025-06-13/this-arizona-state-lawmakers-slate-of-candidates-could-upend-the-state-republican-party>, accessed 2026-08-08]
- Arizona Capitol Times (Reagan Priest, June 10, 2025), "Freedom Caucus announces primary challengers for Arizona Corporation Commission": **Hoffman, as Freedom Caucus chair,**

recruited Marshall (R-Snowflake) and Heap (R-Mesa) to challenge the sitting commissioners; the candidates announced at a press conference June 10, 2025. [Source: <https://azcapitoltimes.com/news/2025/06/10/freedom-caucus-announces-primary-challengers-for-arizona-corporation-commission/>, accessed 2026-08-08]

- KJZZ (Wayne Schutsky, June 10, 2025): Hoffman publicly backed the challenge; Hoffman quotes: "We have two candidates who have stepped up to fix the wrongs that are happening at the Arizona Corporation Commission, two candidates that say no to double digit rate hikes"; "The Corporation Commission is supposed to be a check on the utilities and an advocate for the people of this state." [Source: <https://www.kjzz.org/politics/2025-06-10/gop-lawmakers-look-to-unseat-fellow-republicans-on-arizona-corporation-commission>, accessed 2026-08-08]
- Arizona Capitol Times (Reagan Priest, July 28, 2026): "Arizona Freedom Caucus leader Sen. Jake Hoffman and the Arizona Free Enterprise Club **recruited Heap** to run against the incumbents after they defended Arizona Public Service's closure of the coal-fired Cholla Power Plant." 8.2 Hoffman's consulting businesses (documented)

- **Rally Forge** (Hoffman president/CEO): banned by Facebook October 2020 for "coordinated inauthentic behavior" on behalf of Turning Point USA — Facebook removed 200 accounts, 55 pages, 76 Instagram accounts; Rally Forge permanently banned from the platform. TPUSA paid Rally Forge >\$1.6M (2017–2019) for advertising/marketing/digital services. - **1TEN (current firm)**: KJZZ (June 13, 2025): "Hoffman runs consulting firm 1TEN, which has handled millions of dollars in contracts for candidates like Kari Lake in 2022 and organizations like Turning Point USA." Arizona Mirror (Caitlin Sievers, Feb 20, 2026 — full text verified in browser 2026-08-08): Hoffman "is the president and CEO of consulting and marketing firms Rally Forge and 1Ten"; "From 2017 through 2019, TPUSA paid Rally Forge a total of more than \$1.6 million for advertising, marketing and digital education services, according to publicly available TPUSA tax documents"; "In 2022 and 2023 Turning Point Action paid 1Ten a total of more than \$1 million for social and digital media advertising, according to tax filings"; "Arizona campaign finance reports show that Turning Point Action paid 1Ten more than \$450,000 for services last year, through at least October 2025" (matches the \$459,863 Transparency USA total in §8.4). Hoffman's own floor-debate admission, quoted: his companies "have provided professional services for Turning Point organizations in the past," while denying compensation "connected to this bill" (SB1439, the Charlie Kirk/TPUSA license-plate bill he sponsored). 8.2a Hoffman's sworn business inventory (documented — PRIMARY SOURCE)

- Jake Hoffman's Public Officer and Candidate Financial Disclosure Statement, signed under penalty of perjury 01/31/2023 (covering calendar 2022), filed with the AZ SOS: https://apps.azsos.gov/election/Financial_Disclosure/2023/Senate/hoffman-jake-20667-22647.pdf [downloaded and text-extracted 2026-08-08; local copy in scratchpad; blocked to plain automated fetch — use browser-UA download or manual pull for exhibit copy]. Key disclosures:
 - Sources of >\$1,000 personal compensation: **Rally Forge LLC ("President & CEO")**, **1TEN LLC ("Owner")**, **Forged Communications ("Owner")**, State of Arizona — all three firms at **18521 E Queen Creek Rd, STE 105-503, Queen Creek AZ 85142** (also Hoffman's own listed filing address, STE 105-280 variant).
 - Q12 "controlled" businesses (>50% ownership), 15 total: Rally Forge LLC; Hananiah Group LLC; Baby Bumper LLC (spouse); **Forged Public Affairs LLC**; **Forged Communications LLC**; AmFi Partners LLC (inactive); J2415 Reinsurance Company Inc (Meridian ID); 1518 LP; 110 Management LLC (spouse); **1TEN LLC**; e37 Technologies LLC; 414 Group LLC; AlignPay LLC; AlignAct LLC; Align For Freedom LLC (last three at 67 S Higley Rd STE 103-624, Gilbert AZ).
 - Q8 equity interests "\$100,001+" in each of: Rally Forge, Forged Communications, J2415 Reinsurance, Align For Freedom, 1TEN.
 - Q13: 1TEN LLC's disclosed major client type: "Charity" (advertising services).
 - Note: this is the 2023 filing (calendar 2022). **Manual pull required**: his most recent disclosure (2025/2026 filing) from apps.azsos.gov to confirm the current roster of firms.

8.3 Rdp Strategies identified (documented — de-links Norton's \$1.03M from Hoffman)

- **RDP Strategies is Brian Seitchik's political consulting firm, based in Scottsdale AZ** — campaign management, strategy, paid/earned media; its own site lists "Elijah Norton for Congress (AZ)" among past campaigns; Seitchik's LinkedIn identifies him with RDP Strategies. [Sources: <https://www.rdpstrategies.com/>; <https://www.linkedin.com/in/brian-seitchik-b90a934/>; <https://www.zoominfo.com/c/rdp-strategies/455792614>; all surfaced/accessed 2026-08-08]
- Consequence for §7's hypothesis: the \$1.03M Norton→Rdp Strategies "Consultants" flow is a **Seitchik-firm** flow, not a documented Hoffman-firm flow. No documented link between RDP Strategies and Hoffman found as of 2026-08-08.

8.4 Money trails — Transparency USA (data through 06/30/2026; loaded in in-app browser 2026-08-08)

- **1ten LLC payee page exists**: <https://www.transparencyusa.org/az/payee/1ten> — **\$459,863 total received**, from exactly two committees: **Turning Point PAC \$449,692.68** and **Turning Point PAC Arizona \$10,169.91**. Aliases grouped: "1ten LLC" (\$431,692.68) and "1ten" (\$28,169.91). [Accessed 2026-08-08]

- **Payee city on every transaction row: Queen Creek** — matching Hoffman's documented residence (Wikipedia, accessed 2026-08-08). Hypothesis-tier: this Queen Creek "1ten LLC" is Hoffman's firm 1TEN (named by KJZZ 06/13/2025); entity-record confirmation from ACC pending.
- Itemized payments to 1ten (<https://www.transparencyusa.org/az/payee/1ten/payments>, accessed 2026-08-08):
 - Turning Point PAC (Queen Creek): \$352,000.00 06/02/2025 "TV"; \$22,000.00 05/21/2025 and \$22,000.00 05/22/2025 "Advertising"; \$18,000.00 05/21/2025 "Other"; \$17,886.30 05/24/2025 "Other"; \$17,806.38 05/27/2025 "Other".
 - **Turning Point PAC Arizona (Queen Creek): \$2,687.85 and \$2,457.61 10/24/2025 "Advertising"; \$2,276.41 10/10/2025 "Sign installation"; \$1,827.91 10/27/2025 "Signs"; \$920.13 10/10/2025 "Advertising".**
 - Significance (analysis, hypothesis-tier): the Oct 2025 "Signs"/"Sign installation" payments to 1ten fall squarely in the run-up to the Nov 4, 2025 TPAction-backed Mesa recall election (§6) — i.e., a Hoffman-linked firm was being paid by a Turning Point PAC for sign work in that window. No document yet ties these specific payments to any 2026 candidate's signs.
- **Rally Forge LLC payee page** (<https://www.transparencyusa.org/az/payee/rally-forge-llc>, accessed 2026-08-08): exists but lists **"No Records"** — no AZ state-committee payments to Rally Forge in the aggregator through 06/30/2026. (Its documented Turning Point revenue was via TPUSA's federal/nonprofit filings, not AZ committees.) /az/payee/rally-forge (without "-llc") returns "No payee found."
- **Hoffman's own committee PAID the Grace network (documented — key money link):** Jake Hoffman candidate page (committees "Friends of Jake Hoffman" / "Jake Hoffman for AZ House"; \$28,730 raised / \$6,629 spent through 06/30/2026), full payments list, <https://www.transparencyusa.org/az/candidate/jake-hoffman-can/payments> [accessed 2026-08-08]:
 - **\$1,000.00 to Grace Petitions (Apache Junction), 11/21/2025, category "Petitions"** — the same firm whose circulators registered for the Heap petition (§1) and the Spilsbury recall (§6).
 - **\$2,400.00 (02/18/2026) + \$346.00 (03/23/2026) to "Diane Burns dba Petition Pros" (Apache Junction), category "Petitions"** — Diane Burns is circulator AZ19625 (Grace Petitions registrant on the Mesa recall, §6.2) and a Heap-petition circulator (sheets 928–930, Apache Junction, §6.3). Hoffman's Senate committee is thus a documented direct customer of the Grace/Burns petition network during the same cycle it circulated Heap's petition.
 - Remaining Hoffman payees (complete list): Moir & Associates \$1,200 (accounting), Andrew Armenta \$1,000 ("Other," 12/26/2025), Anedot fees, \$12 unitemized. **No payment from Hoffman's committee to 1ten** (self-dealing would appear here; none reported).
- **Ralph Heap — documented negative:** complete payee list for both Heap committees (Ralph Heap for Corporation Commissioner + Conservatives for Heap; \$10,707 total expenditures through 06/30/2026), <https://www.transparencyusa.org/az/candidate/ralph-heap/payees> [accessed 2026-08-08]: Uncle Sam Petitions \$6,880; Mesa Sign Shop \$644.47; Justin Heap \$440; unitemized \$330.11; Staples \$270.75; Mesa Print Shop \$262.65; Anedot \$222.75; seven Heap family members \$220 each; Harland Clarke \$115.78. **No payment to 1ten, Rally Forge,**

Hoffman, or ANY consultant of any kind — if Hoffman or 1TEN is consulting for the Heap campaign (as the complaint alleges on information and belief), no compensation for it appears in the reports through 06/30/2026 (an in-kind/unreported-services question, not proof of services).

- **Dave Marshall Sr. — documented negative:** complete payee list (Committee to Elect David Marshall, \$25,285 spent), <https://www.transparencyusa.org/az/candidate/david-marshall/payees> [accessed 2026-08-08]: largest payees David Marshall himself \$13,331; **Saguaro Summit Marketing \$5,000** (only marketing/consulting-type payee — principals unidentified as of 2026-08-08); Uncle Sam Petitions \$2,000; Ari Bradshaw \$1,000; balance is party fees/printing/misc. **No payment to any identified Hoffman entity.**
- **Elijah Norton — documented negative for Hoffman entities:** complete payee list (\$2,554,019 spent), <https://www.transparencyusa.org/az/candidate/elijah-norton/payees> [accessed 2026-08-08]: Elijah Norton himself \$1,400,000; **Rdp Strategies \$1,033,567.35** (= Brian Seitchik's firm, §8.3 — NOT a Hoffman entity); Chestnut 520 Consulting \$41,640.36; Incompliance \$18,000; Statecraft PLLC \$12,210; Winged Victory \$7,500; **Dame America \$2,500 (typed INDIVIDUAL)**; remainder party fees/venues/misc. **No payment to 1ten or Rally Forge.**
- **Alexander Kolodin — documented negative for Hoffman entities:** complete payee list (2 pages, \$52,004 spent), <https://www.transparencyusa.org/az/candidate/alexander-kolodin-can/payees> [accessed 2026-08-08]: top payee **Forged Communications \$15,605.00**; Facebook/Meta \$14,601.87; Anedot \$7,044.20; 100 Squared Financial \$6,262.50; Resolute Group \$1,350; Moir & Associates \$600; rest small. **No payment to 1ten or Rally Forge.** (On "Forged Communications" see cross-committee note below.)
- **Gina Swoboda — documented negative for Hoffman entities:** complete payee list (\$103,207 spent), <https://www.transparencyusa.org/az/candidate/gina-swoboda/payees> [accessed 2026-08-08]: Red Dog Strategies \$78,000; Sandpiper Strategies \$10,000; Rocketchics Marketing \$5,000; Incompliance \$3,864.89; misc. **No payment to 1ten or Rally Forge.**
- **Kimberly Yee (slate member) — documented negative for 1ten, but two cross-links:** complete payee list (3 pages, \$241,709 spent), <https://www.transparencyusa.org/az/candidate/kimberly-yee/payees> [accessed 2026-08-08]: Kimberly Yee (entity) \$144,433.66; **Forged Communications \$34,350.00**; Public Opinion Strategies \$25,000; Chesnut 520 Consulting \$15,980.44; **Mesa Sign Shop \$2,528.81 — the SAME sign vendor as Heap's sole \$644.47 sign expenditure (§5); Diane Burns dba Petition Pros \$500.00 — the same Apache Junction Grace-network circulator Hoffman's committee paid**; rest small. **No payment to 1ten or Rally Forge.**
- **FORGED COMMUNICATIONS LLC IS A HOFFMAN COMPANY (documented):** Arizona entity file **1900862**, Articles of Organization filed 09/19/2018 (approved 10/03/2018), status In Good Standing; **principal: Jake Hoffman — Manager AND statutory agent**; manager address 21401 E Russet Rd, Queen Creek AZ 85142; agent address 18521 E Queen Creek Rd Ste 105-503, Queen Creek AZ 85142. [Source (third-party mirror of ACC record): <https://www.city-data.com/business-entities/AZ/FORGED-COMMUNICATIONS-LLC-1900862-AZ.html>, accessed 2026-08-08. Corroboration: Hoffman's own 2023 public officer financial disclosure lists Forged Communications as a communications business he owns — https://apps.azsos.gov/election/Financial_Disclosure/2023/Senate/hoffman-jake-20667-22647.pdf (surfaced by search 2026-08-08; direct fetch 403 — manual pull required). ACC primary record pull from arizonabusinesscenter.azcc.gov also recommended before filing.]

- **Money trail: slate committees → Hoffman's Forged Communications (documented):** Transparency USA payee page <https://www.transparencyusa.org/az/payee/forged-communications> and /payments [accessed 2026-08-08] — **\$49,955 total**, all from two Hoffman-slate statewide campaigns, all transaction rows city = Queen Creek:
 - **Kimberly Yee for Superintendent of Public Instruction: \$25,040.00 (03/03/2026, "Other") + \$9,310.00 (03/17/2026, "Other") = \$34,350.00**
 - **Alex for Arizona (Kolodin, SOS): \$15,605.00 (03/03/2026, "Advertising")**
 - Note both committees' first payments are same-day (03/03/2026). No other committee paid Forged Communications through 06/30/2026 — **specifically, neither Heap committee did.**
- **Cross-committee pattern (analysis):** documented facts — two Hoffman-slate statewide candidates (Kolodin, Yee) paid Hoffman's Forged Communications; Hoffman's committee and Yee's committee both paid **Diane Burns dba Petition Pros**; Heap and Yee both used **Mesa Sign Shop**. Groupings/meaning are inferential (hypothesis-tier), the payments themselves are documented.
- **KJZZ corroboration + larger post-06/30 figures (documented):** KJZZ (Wayne Schutsky, Aug 4, 2026 — the §5 sign article) independently identifies Forged Communications as **"owned by Hoffman"** and reports **Yee's campaign paid Forged Communications \$102,397 and Kolodin's campaign ~\$90,000** — i.e., roughly triple the Transparency USA totals above, consistent with payments reported after the aggregator's 06/30/2026 cutoff. [Source: <https://www.kjzz.org/politics/2026-08-04/who-paid-for-republican-arizona-corporation-commission-candidate-ralph-heaps-campaign-signs>, accessed 2026-08-08. Reconcile exact figures at seethemoney.az.gov — manual pull required.]
- **Documented negative — Arizona Freedom Caucus PAC:** searches on 2026-08-08 found no Arizona state committee registered under an "Arizona Freedom Caucus" name on Transparency USA or in press; the caucus's electoral vehicle appears to be Hoffman's slate operation plus allied PACs (e.g., AZ Free Enterprise Club's Freedom Club PAC — not checked in full). No payment search possible for a committee that could not be located; note for manual [seethemoney](https://seethemoney.az.gov) entity search.

8.5 Hoffman — Turning Point relationship and positions (documented, context only)

- Positions: Arizona state senator (LD15, since Jan 2023; previously House), **chairman of the Arizona Freedom Caucus since its 2022 founding, RNC national committeeman for Arizona**, former **spokesperson for Turning Point USA**. Residence Queen Creek. Indicted April 2024 by Arizona grand jury in the "fake electors" case (charges pending; case remanded to grand jury per KJZZ 06/13/2025). [Sources: [https://en.wikipedia.org/wiki/Jake_Hoffman_\(politician\)](https://en.wikipedia.org/wiki/Jake_Hoffman_(politician)); <https://www.kjzz.org/politics/2025-06-13/this-arizona-state-lawmakers-slate-of-candidates-could-upend-the-state-republican-party>; both accessed 2026-08-08]
- Rally Forge–Turning Point: TPUSA paid Rally Forge >\$1.6M (2017–2019); Facebook banned Rally Forge Oct 2020 for coordinated inauthentic behavior on behalf of TPUSA/Turning Point Action (§8.2 sources); The Guardian (per Wikipedia) reported Rally Forge created fake left-wing front "America Progress Now" promoting Green Party candidates online in 2018 — an eerie

precursor to §3's 2026 sham-Green pattern (that parallel is **hypothesis-tier**, no documented 2026 Rally Forge role).

- 1TEN–Turning Point: Turning Point Action paid 1Ten >\$1M in 2022–2023 per tax filings, and >\$450,000 in 2025 per AZ campaign finance reports (Arizona Mirror 02/20/2026, full text verified in browser 2026-08-08 — see §8.2); AZ-committee detail in §8.4 (Turning Point PAC/PAC Arizona → 1ten, \$459,863, incl. Oct 2025 signs/sign-installation line items). Hoffman "worked closely with Kirk" for over a decade (same article) and in 2026 sponsored SB1439 (TPUSA license plate), SB1686 (Kirk statue). TPAction maintains a legislator scorecard page for Hoffman (<https://www.tpaction.com/scorecard/legislators/jakehoffman>, accessed 2026-08-08).
- No U.S. Senate 2026 run found: Transparency USA lists his elections as AZ House 2020, AZ Senate 2022/2024/2026 (LD15) — he is a 2026 legislative candidate, not statewide/federal. [<https://www.transparencyusa.org/az/candidate/jake-hoffman-can>, accessed 2026-08-08]

8.6 Hoffman — vendor links and the sign program

- **Myers' on-record allegation (documented — directly parallel to the Heap sign scheme):** at the Clean Elections Commission hearing, sitting Commissioner **Nick Myers said that four years ago (2022 cycle), when he ran as a Clean Elections candidate, the Arizona Free Enterprise Club proposed "Go buy it and pay yourself back when you get your funding, and we will make sure you get your funding," and "Jake offered to buy signs and said, 'You can pay me back, because you have to get your signs out now.'"** Myers rejected both, believing they violated Arizona law, and told commissioners: "It's widely believed that the individuals who advised this scheme are the same individuals who approached me four years ago." Hoffman's response: "Any notion that Yee or Kolodin have anything to do with this is a tinfoil hat conspiracy theory. Nick Myers is a liar and crazy person, which is presumably why he lost his reelection." KJZZ describes Hoffman as "a state lawmaker and political consultant who recruited Heap to run for the Corporation Commission" and notes he denied involvement in Heap's campaign. [Source: KJZZ, Wayne Schutsky, Aug 4, 2026, URL above; corroborated by KJZZ Aug 5, 2026 second-complaint article, <https://www.kjzz.org/elections/2026-08-05/arizona-republican-ralph-heap-faces-2nd-campaign-finance-complaint> (Hoffman "fully denied it," is "backing Heap's candidacy"); both accessed 2026-08-08]
- **Hoffman's own committee → Grace Petitions network (documented):** §8.4 — \$1,000 to Grace Petitions (11/21/2025) + \$2,746 to Diane Burns dba Petition Pros (02–03/2026), both Apache Junction, both "Petitions."
- **1ten sign work for Turning Point PAC Arizona (documented):** §8.4 — \$2,276.41 "Sign installation" (10/10/2025) and \$1,827.91 "Signs" (10/27/2025), during the TPAction-backed Mesa recall run-up (timing link is hypothesis-tier).
- **Documented negatives (through sources checked 2026-08-08):** no press or portal source ties Hoffman or his firms to **Uncle Sam Petitions** or **DAME America**; no coverage found naming who bought/installed Heap's 184+ signs (KJZZ: unresolved); no payment from any checked committee to Rally Forge; no Heap-committee payment to any Hoffman firm.
- **Slate-status note (documented; full text verified in browser 2026-08-08):** David Marshall resigned his legislative seat and formally withdrew from the Corporation Commission race before being sworn in as Navajo County Recorder on 04/21/2026 (appointed by the Democratic-majority board 04/14/2026); attorney **Tim La Sota** — the same attorney representing Heap in the sign-complaint matter (§5) and Lombardo in §3 — wrote letters calling Marshall's appointment illegal, and the AG's office is "looking into the matter." Heap told KJZZ he hoped

Marshall wouldn't take the job; Marshall said he still supported Heap. [Source: Votebeat via Arizona Mirror, Sasha Hupka, Apr 27, 2026, <https://azmirror.com/2026/04/27/why-did-a-democratic-majority-board-appoint-david-marshall-as-recorder/>, accessed 2026-08-08]

- Joint slate web presence (documented): Heap and Marshall shared a campaign site, [azcc.vote](https://azcc.vote/david-marshall/) ("About David Marshall Sr. • Dr. Ralph Heap for the Arizona Corporation Commission," <https://azcc.vote/david-marshall/>, surfaced 2026-08-08).

8.7 Subpoena-relevant synthesis (analysis)

Documented chain for a testimonial subpoena of Hoffman: (1) he recruited Heap and announced/organized the slate (8.1, multiple outlets + his own quote); (2) he is a professional campaign consultant who swears ownership of Rally Forge, 1TEN, Forged Communications, Forged Public Affairs et al. (8.2, 8.2a); (3) his firms received \$459,863 from Turning Point PACs (incl. sign work) and \$49,955+ (per KJZZ ~\$192k) from two slate campaigns (8.4); (4) his own committee paid the same Grace Petitions/Diane Burns network that circulated Heap's petition (8.4); (5) a sitting commissioner alleges on the record that Hoffman personally offered him the exact buy-now-pay-me-back sign scheme in 2022 (8.6); (6) Hoffman publicly denies any role in Heap's campaign (8.6) — squarely framing the factual question a subpoena would resolve. Suggested document demands: 1TEN/Forged Communications/Forged Public Affairs/Rally Forge records of services, invoices, or in-kind support re: Heap, Marshall, Yee, Kolodin, the sign program, Grace Petitions, Diane Burns/Petition Pros, Uncle Sam Petitions, DAME America, and Turning Point PAC (Arizona), 2025–2026.

8.8 Manual pulls still required (this section)

9. Registration histories — selective non-registration analysis

Compiled 2026-08-08. Full per-row histories: [work/registration_histories.md](#). Source for every item: SOS Circulator Portal, <https://apps.azsos.gov/apps/election/circulatorportal/Home/Search> (29,197 rows, 2018-cycle forward), accessed 2026-08-08; searched by exact Circulator ID (unique key) so each history is complete; same retrieval method/caveats as §1/§6 method notes (dates in America/Phoenix; cite the rendered grid for exhibits).

Headline facts (documented):

- **ZERO 2026-cycle candidate-petition registrations across all 12 key circulators** (Gary Moons Rohde AZ69109, J. Marasigan AZ64211, N. Marasigan AZ67099, Castillo AZ36957, Houlis AZ38829, W. Vogt AZ36596, Causey AZ80451, Gorshe AZ26295, Collier AZ92408, Burns AZ19625, Kadlec AZ30169, V. Sandoval AZ21285). None has a candidate registration in ANY cycle back to 2018; all 58 combined lifetime rows are initiative/referendum/recall/municipal, essentially all Paid-flagged.
- **They are habitual REGISTRANTS, not non-registrants:** 10 of 12 registered for other 2026-cycle engagements — Tolleson serials (Aug–Sep 2025, Uncle Sam), Mesa recall RC2025-02 (Feb–Apr 2025, DAME/Grace), I-04-2026 (Feb 2026, Canyon State Marketing), I-10-2026 (Mar–May 2026, Petition Partners). Career depth: Houlis 14 rows/4 cycles/6 firms since 2019; Gorshe (Uncle Sam's owner) 13; Collier 10 (incl. two recalls); W. Vogt 9.
- **Registrations INSIDE the Heap circulation window** (Heap registrations by Grace's travelers: Hohnholt 1/15/2026, Sobkowski 2/7/2026; Heap filed 3/19/2026): W. Vogt 2/6, Woodruff 2/6, Houlis 2/12, L. Vogt 2/13 (all I-04-2026, Canyon State); then Collier + Kadlec + V. Sandoval same-day 3/24, Castillo 3/25, Houlis + W. Vogt 3/26, Gorshe 3/27 (I-10-2026) — actively using the portal in the exact weeks the Heap sheets were produced, without a Heap (or any candidate) registration.
- **Both Marasigans are flagged Out-of-State** on their only-ever registrations (Tolleson, Uncle Sam, 9/12 & 9/18/2025) — relevant because OOS circulators must register for candidate petitions regardless of pay (both appear in the Heap sheet roster; identity confirmation caveat per §6.3).
- **Mirror question (documented):** the network DOES register circulators for candidate petitions when the engagement is on the books — Sobkowski AZ10115: 15 distinct 2026 candidate registrations (all 2/7/2026, 14 Grace + Schweikert/Direct Effect, all OOS-flagged), incl. Heap. Hohnholt AZ73851: 26 rows/22 distinct 2026 candidates (1/7–3/9/2026, Grace + Direct Effect, OOS on every row of his 46-row 2018–2026 history), incl. Heap 1/15/2026 — with candidate-by-candidate, jurisdiction-by-jurisdiction entries and same-day corrections. The operators demonstrably know and operationalize the candidate-registration requirement — for the circulators whose candidate work is on the books.
- **Tier-B (documented):** Woodruff AZ90781, Cavalier AZ39328, Lindsey Vogt AZ53883 — active 2026 initiative registrants, zero candidate rows ever. Joel Mullins AZ93238 (2020 only) and Sandi Fleming AZ15580 (last 2024) — no 2026-cycle registration. **Steve Rudick and Vincent Wheeler: 0 rows in the entire portal, any cycle** ("never registered at all"). Eduardo Sandoval: still absent entirely (re-confirms §3 negative).
- **Incidental (documented):** "Diane Burns" appears as a portal COMPANY back to Dec 2019 (Lauren Vogt AZ91480, Scottsdale RF-01-2019) — Burns has been a petition vendor for 6+ years while holding one lifetime registration of her own (§8.4: paid by Hoffman and Yee committees as "Diane Burns dba Petition Pros," 2026).

Analysis (inference, clearly separated): the record shows selective non-registration, not ignorance or habit: every one of these career paid circulators registered for the engagements with reported vendor payments (municipal/recall/initiative) and — uniquely — none registered for candidate work in the window their Heap sheets were generated, while the same firms registered their on-the-books travelers for 15–22 candidate petitions each. Whether each was paid for Heap work (making registration mandatory and its absence disqualifying) is the fact put in issue by the below-market \$6,880 (§7); the uniform 12-for-12 absence is the documented pattern supporting off-books payment. Legal conclusions reserved.
